Mike, I noted in the email that both yesterday and today's inspection reports will be out today, had an issue with my tech sending me the file (I was offsite). You will be getting both shortly.

Making progress at 001, we are now focused on the Central Treatment Plant Process, we will get this Outfall essentially free of oil sheen, even behind the containment.

Tom-

I received the photos, but did not receive an inspection report from yesterday. Did you send one out?
